

Weekly Report

Yuxin Ma

12.22.2014 - 12.28.2014

Projects

Visual SVM

A draft version is attached that contains the structure of two main sections.

Plan for Next Week

- The very first thing is to add an overview figure that briefly describes the relations between three sections (a.k.a section 5, 6 and 7);
- Secondly, I will finish the visualization design part, which are the manual control panel in sec. 5 and the View 1&2 in sec. 6.;
- Additionally I will upgrade the original version of the visual rule extraction section and write it into the current draft.
